

Honor. Altruism. Heart.

**СYBER SHINU**

W H I T E P A P E R

# Leader of the Cybershis, protector of the Shinu

## The ERC-20 token of the underdog.

Cybershinu aspires to evolve the dog meme coin, and aims to provide power to the community while making a difference in the world for individuals.

Cybershinu empowers the average investor by providing a fair presale launch at a set token price. That way, you'll always be in the win, without fear of dumping whales.

We're also giving back to those who without, we wouldn't be here. Our friendly animals will receive substantial donations, in form of aid to shelters, foster parents, and if we take off enough - our very own shelter we can all say we played a part in.

**Join the Cybershi movement and help us make a difference.**

[Buy \\$CYSHI](#)

# Inspiration Behind CYSHI

**Our token and project took various inspirations from Cyberpunk, Blade Runner, 1984, and of course, the dog craze founder, the Shiba Inu itself.**

We at the Cybershinu team deeply believe in financial freedom, a topic which is becoming more and more expressed everyday. We believe everyone has the right to do what they love, and not have to suffer working minimum wages for the rest of their life. We're hoping by introducing Cybershinu into the crypto space, we can help that become a reality for many.

**Join us - we have so much more to show you.**

# The Three Virtues of the Cybershis

## Honor

No Cybershi shall ever steal or do wrong by another Cybershi. We are all in this together, seeking a better world for all people.

## Altruism

The desire to help others. All Cybershis must carry this charitable virtue in their everyday lives. We must become the voice for those who have none.

## Heart

To show courage in every living moment of life, in danger or not.

# The problem and the solution

Billions of dollars are poured into Crypto every year by retail investors - the market is growing, and its showing. The problem? Investors aren't sure when is a good time to invest. Usually in a money market, the bear trends and market corrections are great times to step in. In crypto, a "Correction" could just as easily be a stock crash, or a dip by a whale before an outburst of 20x. No one knows, and with some hedge funds/whales getting in at an undisclosed token price, everyone's at the mercy of these goliaths.

The solution? A set, FAIR pre-sale price for everyone, verified by the developers. There would be zero token holders before the pre-sale, ensuring everyone gets in at the same price, fairly. This ultimately gives the early investor security over their investments as the typical fear of a dump isn't there. The early investor instead gets access to unlimited growth potential with very little risks to dips - ensuring an increase in price after the pre-sale. This is what CYSHI will accomplish.

**With this solution in mind, our team launched Cybershinu (\$CYSHI) in December 2021.**

A passionate community of believers soon started to take shape as crypto enthusiasts joined together.

# Cybershinu NFTs

Part of our ongoing internal roadmaps is creating a sustainable eco-system, with room for expansion. Our NFTs do just that. we'll begin with our

## 10,000 unique interpretations

of the Cybershi followers of Cybershinu, which in the allegory, are the investor rebels against the whales. These NFTs will allow the project to move forward in the direction of GameFi, aimed at creating a Cybershinu fighting game in the style of Street Fighter and other popular platform fighters. Our team consist of a couple of madlads playing this on a daily basis in the past, and we wish to introduce our passions into the project.

# Why Invest in CYSHI

## No taxation fee

At CYSHI, we believe that once you purchase your tokens, they are yours. There is no need for a taxation fee from your local government and us. That isn't what decentralization is about.

## Cybershinu Pad

Launch your own token with our easy contract wizard, coming soon. You'll be able to hold your very own presale, similar to CYSHI, with no hassle.

## True DeFi

Cybershinu gives you complete control over your tokens through strategic partnerships. We have big plans on being able to use your \$CYSHI as collateral on some platforms. With an upcoming DAO as well, we're aiming at big plans on how you can generate some extra income.

## #WAGMI

At a fair, set-price pre-sale, with zero pre-whitelists or anything of that nature, Cybershinu provides everyone with the same opportunity to a moonshot. We'll all get in on the same price - and it can only go up from there.

# How to Buy CYSHI

Once the presale has finished, you will be able to freely buy and trade \$CYSHI.

## Create a MetaMask Wallet:

\$CYSHI is available on the Ethereum blockchain. MetaMask is an ERC20 (ERC) wallet that can be accessed through a browser extension or mobile app.

## Send \$ETH to MetaMask:

Acquire ETH through MetaMask itself or transfer it to your MetaMask wallet address from another wallet (e.g. Coinbase, Crypto.com).

## Visit Uniswap:

You can currently swap ETH and other tokens for CYSHI on Uniswap.

## Swap ETH for CYSHI:

Enter the amount of ETH you would like to swap for CYSHI. Select CYSHI from the list of tokens, click "Connect Wallet", and then swap your tokens.

## FAQ

### ? What will the team do with their 5%?

The Cybershinu dev team will openly spend this money on marketing, donations to animal charities as promised, and pushing \$CYSHI to the moon. **Developer fees and such will also be taken from this 5%**, as there is no fee to generate income for these expenses.

### ? Is there any taxation fee?

While many memecoins implement a taxation system on their coins — **sometimes up to 15%** — we believe it goes against decentralization. You shouldn't have to calculate a fee into your profits.

### ? When is the presale?

The presale will be at a set date once our internal deadlines are met. For more information, join us over at our social media!

### ? What price is the presale?

During the presale, you will be able to purchase \$CYSHI at a **fixed rate of \$0.00075 per token.**

### ? When will the minting sale be for the Cybershi NFTs?

The Cybershi NFTs will launch at the end of our presale for a **price of 0.1 ETH.**
